DEWEY ASKS FOR HELP

He Would Have the Peerless Battleship Oregon at Once.

REQUEST FLOORS OFFICIALS.

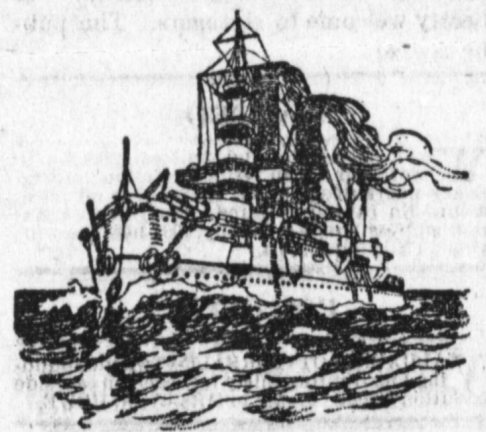

Unable to Fathom the Dispatch, It Sets Wild Speculation Afloat.

FOREIGN INTERFERENCE FEARED

Destructive Fires and Disorders at Manila Afford a Pretext for Outside Meddling—Rebels Very Active and Show Improved Marksmanship.

Washington, Feb. 24.—The following dispatch was received at the navy department from Admiral Dewey at Manila: "For political reasons the Oregon should be sent here at once."

The cablegram from Admiral Dewey asking for the Oregon was received with surprise by the officials here. No one knew the nature of the political reasons which the admiral says demands the immediate presence of the peerless battleship. The cablegram was taken to the cabinet board and fully discussed there. The admiral, it is said, possibly feels that the moral effect of the presence of the big ship upon the insurgents themselves, and particularly upon that large element

BATTLESHIP OREGON, among the Filipinos that is believed to be restrained with difficulty from joining fortunes with Aguinaldo, with whom their sympathies lie, would be good.

But there is an underlying doubt whether or not the admiral may not be keenly sighting a gathering cloud in the east, and is looking to the prevention of any possible intervention or interference by European powers in the struggle now in progress in the neighborhood of Manila. It is believed that in the big fires much property of foreign residents and business concerns was destroyed. That these fires were caused by the insurgents cannot be denied, and it may be that some of the foreign naval commanders in the east are disposed to seize upon the pretext that their interests demand protection, which we cannot afford them, to make a landing or do something obnoxious to the United States, and likely to encourage the insurgents.

With such a strong naval force as would be afforded by the reinforcement of Dewey's fleet by the Oregon, there could not be any sound reason, nor even a plausible reason, for any such action on the part of third parties.

As to Claims for Damages. It is said here that up to this moment there has been no intimation of a purpose on the part of any foreign government to file any claims for pecuniary remuneration for the property of their citizens destroyed in the fires and fighting either at Manila or Iloilo.

Just what disposition would be made of any such claims is not indicated here, though there is ground for the belief that if it can be shown that our military and naval officers practiced the precautions required by international law in the matter of giving due notice to foreigners of any action in the way of bombardment that might injure their property, and otherwise did everything that could be done to protect the foreign interests equally with our own, then there is little foundation for any sound claim for damages.

The Oregon arrived at Honolulu on the 5th inst., according to the telegraphic report that came to the navy department.

REBEL FIRE TOO HOT.

American Headquarters Near Calocan Removed Within the Lines.

Manilla, Feb. 24.—The enemy's sharpshooters have been particularly active about Calocan all day. Special attention was paid to a three-gun battery near the railroad, and the improvement of the rebel marksmanship was very noticeable. The rebels fired volleys at the battery, their bullets

frequently skimming the tops of the sandbags. A lieutenant of the Twentieth Kansas volunteers and three other men were slightly wounded. A man was killed in the trenches.

The enemy's fire was so hot during the night in the vicinity of the Higgins house that the headquarters was removed to a church 400 yards inside the line.

The rebel battery has not been used since a shell from the United States double-turreted monitor Monadnock exploded over it.

A few small fires have occurred in a few native shacks in various parts of the city.

The Twentieth infantry is being disembarked from the transport Scandia. The regiment will be encamped on the water front, at the former quarters of the Tennessee volunteers, temporarily.

Rebels Completely Routed.

Washington, Feb. 24.—General Otis cabled the war department as follows from Manila: "On the nights of 21st, 22d and 23d insurgent troops gained access to outskirts of the city behind our lines. Many remained in hiding and about 1,000 entrenched themselves. The latter were completely routed, with loss of killed and wounded about 500 and 200 prisoners. Our loss very slight. The city is quiet, confidence restored, and business progressing. Scandia arrived here."

Oregon on the Way.

Washington, Feb. 24.—The navy department expects the Oregon to arrive at Manila about March 10. As the transports are ahead of schedule time it thinks General Otis within a week will have reinforcements of 2,500 men.

COURT OF INQUIRY.

Former Commissary General Eagan Tells of Army Beef Contracts.

Washington, Feb. 24.—Former Commissary General Charles P. Eagan resumed his testimony before the court of inquiry investigating the beef charges. Recurring to the contract requirements, he explained that Swift & Company were wholly responsible for the beef until delivered to the government officials at the points designated by the department. The clause requiring beef to keep 72 hours after leaving the refrigerator was inserted, he said, at his instance after the concerns declared they could prepare it so as to keep that long. Explaining further he said:

"Suppose a commissary should make requisition at Santiago for 20,000 pounds of beef, should secure it from the ship and take proper take of it, retaining it in the shade, and it should spoil within 72 hours, the contractors would not be paid for it."

Many vouchers for beef had been paid, he said, and he presumed deductions for spoiled beef had been made, though he did not know. He understood through Colonel Osgood that beef had been rejected by commands when in fact it was sweet and perfectly good.

Canned roast beef was declared by commissary officials at Tampa as the best solution of the fresh beef problem until circumstances were such as would admit the prompt delivery and use of refrigerated beef. Reports received showed without exception that the native beef was not nearly so satisfactory as the refrigerated beef. The latter tends to displace beef on the hoof wherever both are equally available.

Alger Will Hold On.

Pittsburg, Feb. 24.—Secretary of War Russell A. Alger, with his party returning from Detroit, passed two hours in Pittsburg. During his stay here, he took occasion to deny the story published that he contemplates resigning. In answer to further questions, he said: "I could not afford to leave the cabinet under the present conditions. I am perfectly satisfied to leave the investigation of my conduct during the Spanish-American war with the investigating committees that have been appointed. I have no fear of the result. I could not relinquish the portfolio as secretary of war while still under fire."

Confessed to Colossal Swindling.

Chicago, Feb. 24.—Confession of extensive swindling practices in European cities and carried on for the last nine years in the United States has been made by Nathan Lahtman, who was arrested Saturday on a charge of having attempted to swindle Lowenthal Brothers, junk dealers, out of \$17,000 by trying to sell brass borings for gold dust. The statement of the prisoner, who is 60 years old, was made to Captain Wheeler of the Maxwell street police station. During his career, he said he had made no less than \$300,000 by operating the alleged gold dust swindling scheme.

St. Louis, Feb. 24.—Professor Walder Malmann of this city, a critic well known in the musical circles of this country and Europe, was found unconscious in a room of a hotel, as the result of an overdose of chloral. He is in a critical condition. Domestic troubles, it is said, caused the professor to leave home temporarily.

JOHNSON AT IT AGAIN.

A Most Remarkable and Sensational Speech in the House.

ASSAILED THE PRESIDENT.

Alleges the Latter Is in the Hands of Selfish and Designing Capitalists in Waging War Against a People Struggling for Freedom.

Washington, Feb. 24.—Immediately after the reading of the journal in the house an agreement was reached to limit debate on the army appropriation bill to five hours, and it was taken up at once.

Mr. Johnson (R. Ind.), who made vigorous opposition to the army reorganization bill while it was before the house, secured 30 minutes in which he delivered a most remarkable and sensational speech, arraigning the administration in bitter terms for its alleged imperialistic program. It was carefully prepared and read from manuscript, quite contrary to Mr. Johnson's usual custom.

He referred in opening to the recent banquet in Boston attended by the president and members of his cabinet. He paid his respects to Secretary Alger, who, he said, had been retained in the cabinet despite his incompetency on account of his contributions to the campaign fund of 1896. Secretary Long also came in for his share of irony. He had the audacity, Mr. Johnson said, to respect the baseless charge that those opposed to ratification of the treaty were responsible for the bloodshed in the Philippines. As Mr. Johnson proceeded his remarkable utterances fairly amazed members of the house who gathered in the aisles to listen.

Christianizing with the sword and civilizing with cannon, he declared, was the administration's policy. The president's speech at the Boston banquet, Mr. Johnson declared, was the most disingenuous that ever fell from the lips of a chief executive. "Apart from its platitudes and professions of virtue it was," he said, "a carefully devised and studied misstatement of facts."

Amazed the House.

The sensation Mr. Johnson was creating increased as he likened the president to Pecksniff. If the president really felt that congress should determine upon the future of the Philippines, he asked why the president did not call congress in extra session, and then keep his hands off. He charged that the president coerced the senate into ratifying the treaty; that he would not permit a vote on the Bacon resolution, and only allowed the McEnery resolution, which meant nothing, to pass in order to lull the opposition of the country to sleep while he went ahead waging relentless war against a helpless people, struggling for liberty.

How the two-thirds vote to ratify the treaty was secured, Mr. Johnson said, only the president could tell. The people did not endorse the action of the senate. If the president could hush the noise of the self-seekers about him he would hear, not the tread of the 100,000 men whom he desired to enforce his crusade against liberty, but the murmurings of the mighty army of the American people who would overthrow him in the end. The true cause of the president's change of attitude toward the Philippines, Mr. Johnson declared, was to be found in the demands of selfish capitalists. They were the gentlemen he said who had furnished the money for his nomination and election, and he had no doubt they had already pledged him a renomination and a re-election.

He charged that these men had already seized valuable concessions in China, which the acquisition of the Philippines would benefit. He said vast concessions had already been granted in Porto Rico and Cuba, and he had no doubt the board created by the president would farm out valuable franchises to Americans which properly belonged to the natives of those islands.

To Investigate Bribery Charges.

Harrisburg, Pa., Feb. 24.—A resolution calling for an investigation of the charges of bribery in connection with the vote on the McCarrell jury bill was introduced in the house by Mr. Koontz, one of the anti-Quay Republican leaders. The resolution calls for a committee of three Republican and two Democratic members to conduct the inquiry. The charges are made in a Philadelphia newspaper.

AN INCENDIARY FIRE.

Eight Business Houses, Including a Hotel, Destroyed in an Ohio Town.

Ripley, O., Feb. 24.—What is supposed to be an incendiary fire was discovered under the main stairway of the Reinert hotel. The flames had such headway that two guests of the hotel were cut off from escape by the stairway and found safety through a window on the second floor. The fire spread to the Sacker and Dale blocks adjoining, and caused the greatest loss ever known in the city. Eight business houses, including the hotel, were involved in the loss.

Another Big Iron Deal.

Cleveland, Feb. 24.—Another big deal in the iron and mining trade is about to be closed. It is the sale of the Lake Superior Iron company, which owns considerable mining property in the Lake Superior district and a fleet of vessels on the lakes. It cannot be learned who is negotiating for the property. President W. A. Waterson of the company has sent out a circular letter to the stockholders, saying that negotiations are pending for the sale or control of the property upon very advantageous terms.

AT WAR WITH CUBANS

Will Be the United States of America at No Distant Date.

COOL HINT OF A SENATOR.

Hitch in the Army Reorganization Compromise Likely, as Democrats Object to Increase of Staff Officers. Debate in the Senate.

Washington, Feb. 24.—It was reported that there has been a hitch in the progress in the army reorganization bill, owing to the refusal of the Democrats to accept that provision of the compromise bill which carries with it the increase of staff provided for in the Hull bill.

While the foregoing view was expressed at the war department, at the capital senators generally accepted the compromise as a foregone conclusion. So far as there has been any expression of opinion such a bill will be accepted, but even this will not go through without debate. Some senators hesitate to give up the provision for the enlistment of native troops in the islands, while others indicate determined hostility to this provision if it should not be changed.

Representative Hull, chairman of the house military committee, during the debate on the army appropriation bill had read as a part of his remarks what he said probably will be the compromise measure for the reorganization of the army. Generally speaking, it agrees with the outline already published.

Mr. Sewall took the floor in the senate to make a speech in support of the army bill, urging action. He made a statement to the effect that 20,000 soldiers would be needed in Cuba, which was challenged by Mr. Foraker, the latter saying that the military committee had put the number at 12,000. He expressed the opinion that the United States would soon be at war with Cuba, and said very decisive action was necessary in the Philippines.

The river and harbor bill was then taken up and the Nicaragua canal amendment was reached.

The Nicaragua canal amendment to the river and harbor bill was held to be in order by a vote of 51 to 7.

Cubans' Fourth of July.

Havana, Feb. 24.—Four years ago Friday the revolution in Cuba, which has ended in the disappearance of Spanish rule from this island, broke out, and the day was observed as a general holiday. Triumphant arches were erected in the different quarters of the city, bearing patriotic inscriptions, rockets popped in the air, bands played and General Ludlow, governor of Havana, gave permission to the Cubans to bring 500 of their troops into the city with General Maximo Gomez, who selected the day for his triumphal entry into the Cuban capital.

CERT! Trusts are great institutions for the workingmen of the country. It is announced that the American Steel and Wire Company—a trust—which recently bought out the Indiana Wire Fence Company, Crawfordsville, will close the plant. The plant was established fifty years ago. The laborers thus thrown out of employment can whistle for a job.

Some Louisville Republicans are very bitter, against Congressman Evans. In their efforts to defeat him for U. S. District Judge they charge him with endeavoring to defeat McKinley for President in 1896 and that in 1897 the same Evans did conspire with Democrats to defeat the entire Republican ticket save his bosom friend and traitor, Charles G. Ritchie. The brethren down there are not "dwelling together in peace and harmony."

An expert Mr. Robinson estimates that if the Hanna-Payne shipping bill becomes a law, and that if an average of but 50 per cent. of the ships engaged in our foreign commerce during the thirty years it is to run should be subsidized, the bill would cost the tax-payers of this country the enormous sum of \$1,087,514,510 in bounties. Mr. Robinson says: "The genesis of this bill is greed, its mask enterprise and patriotism, and its purpose monopoly."

While Sampson was denouncing Schley for "reprehensible" conduct in the Santiago naval campaign, he forgot that Schley held a letter from him praising and commending that very conduct. The publication of that letter was in the nature of a bombshell in the ranks of the Sampsonites, and should silence their guns for all time. Commenting on Schley's reply, the Lexington Herald well says: "This defense is the first opportunity Schley has had to submit his case to the people, and it is in every way a worthy and commendable exposition of his case. Its temper is admirable, its soldierly courtesy and respect praiseworthy and it will become a notable state paper. The Senate may perpetuate the injustice of the department; in the mere official sequence of names Sampson may precede Schley, but in the hearts of their countrymen and on the pages of history the names will not thus stand."

MAX NORDAU, a noted writer, doesn't take a very rosy view of the future of our country if the expansion policy is to be a permanent one. He says:

The war against Spain was conducted with genuinely American freshness and energy, but at the conclusion of peace the United States showed a lack of magnanimity; the people were courageous fighters, but not knightly voters. The slogan which, at the commencement of hostilities, read "Liberation of the Oppressed," was rapidly changed into "Conquest and Acquisition." The Constitution, adjusted to a free and united people, having equal privileges, is an instrument poorly adapted to the exercise of authority over bondsmen. The suppression of Asiatics and Australians will breed estrangement, who will endeavor to introduce into our political life the most harmful practices of rule by force; the American democracy imposes upon itself a lash when it proceeds to a big increase of the standing army; to the menace of trusts and rings will be added the dangers of the military power becoming a tool to further the plans of billionaires; the United States will pay for her new possessions first with equality and at last by giving up the liberty of the people to a Caesar.

Pork Packing and Provisions.

[Cincinnati Price Current, February 23.] There has been some enlargement in the marketing of hogs, but the supply continues to fall short of the calculations of the trade early in January. Western packing for the week 470,000 head, compared with 415,000 the preceding week and 460,000 two weeks ago. For corresponding time last year the number was 485,000. From November 1 the total is 9,250,000, against 7,990,000 a year ago, an increase of 1,260,000. The average of prices at the close is about 10c. per 100 pounds lower than a week ago, and about 35c. lower than a year ago. The quality continues generally good, but in some instances the current receipts have shown lighter weight. At Chicago, however, the week's average indicated some increase.

The provision markets have been easy, with a declining tendency in prices most of the week, closing with a loss of 50c. per barrel for pork, 30c. per 100 pounds for lard and 25c. for short rib sides at Chicago for May, in comparison with a week ago.

MUNICIPAL OWNERSHIP.

English and Scottish Cities Now Own and Operate Their Water, Railway and Gas Plants.

[Cincinnati Post.]

J. W. Martin, of London, is in this country explaining the "Municipalization of Monopolies." Addressing the People's Institute at Cooper Union, New York, the other day, he stated that English and Scottish cities formerly allowed private companies to furnish water, but now, at less expense and with greater purity of product, it is brought miles to Glasgow from a mountain loch and to Birmingham from a lake in Wales. The latter city established a municipal saloon for the navies at work constructing the water plant. He said there are 206 cities in Great Britain owning gasworks and the price is about 54 cents a thousand feet. Glasgow formerly paid \$1.14. Workmen have benefited by municipal ownership in having shorter hours. Bradford has received 12 per cent. profit on its electric plant, and many other cities proportionately have profited. Shore-ditch, London, has a crematory that burns garbage and the necessary heat is used to raise steam to drive dynamos for lighting purposes.

Mr. Martin dwelt at length on the Glasgow railway experiment. The terms with the constructing corporation compelled it to support a sinking fund that in twenty years would buy the road for the city. The corporation paid as high as 12 per cent. to stockholders. When the city took charge of the road it received \$200,000 the first year as profit.

Glasgow is about to put in a telephone system and in 1911 the Government will own all telephone lines in England. Experiments of this nature will doubtless be hastened in America by the grinding and grasping methods of certain quasi-public corporations.

An Augusta Woman Attempts Suicide.

CHICAGO, Feb. 23.—Miss Sadie Wood, of Augusta, Ky., who attempted suicide at the Young Women's Christian Home, at 288 Michigan avenue, has mysteriously disappeared from the County Hospital, and Warden Graham is being severely censured for apparent carelessness. Some unknown woman called at the hospital on Monday morning and said she would give Mrs. Wood a home, and as the patient had recovered from the effects of a dose of morphine she was allowed to depart.

AUGUSTA, Ky., Feb. 24.—Miss Sadie Wood, who attempted to commit suicide in Chicago, and afterwards mysteriously disappeared from the hospital, is a daughter of Samuel Wood, who lives on a farm three miles from this city. Her relatives here were not aware of her being in Chicago, but thought she was in Cincinnati, where she had been an employe of the Presbyterian hospital.

She was of a lovely disposition, stood high here, and was eighteen years of age. The news of her attempt at self-destruction dumfounded her relations here.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Trial bottles free at J. J. Wood & Son's drug store. Regular size 50c. and \$1. Every bottle guaranteed.

Then the audience dispersed, and the actors were locked in the building, where they remained until morning. On the way to the train they were followed by a mob and again egged.

A PASTOR TO WED.

Oldest Daughter of the Late Rev. C. S. Lucas to Become the Bride of Rev. Robert Graham Frank.

[Pittsburg Press.]

Miss Emma G. Lucas, of Buena Vista street, Allegheny, daughter of the late Rev. C. S. Lucas, of the First Christian Church of Allegheny, is to be married Thursday evening, March 9th, to Rev. Robert Graham Frank, pastor of the Christian Church of Nicholasville, Ky.

The wedding will be a small family affair, and will be solemnized at the home of the bride's mother. The bride and groom will leave the city immediately after the ceremony for a wedding tour. They will make their home in Nicholasville.

The prospective groom is a son of the late Rev. Joseph Frank, and is one of the brightest and most zealous young ministers in Kentucky. He preached the anniversary sermon to the Knights of Pythias of that place last Sunday, and the Jessamine Journal says "it was pronounced by competent critics as being one of the most masterly ever delivered in behalf of a fraternal organization in Nicholasville." He is certainly to be congratulated on his choice of a companion and helpmeet. Miss Lucas is a most charming and accomplished young lady. The couple's many friends in Maysville join in heartiest good wishes and congratulations in advance of the happy event.

COCHRAN OR EVANS.

Fight For U. S. District Judgeship Said to Have Narrowed Down to the Maysville Lawyer and Louisville Congressman.

WASHINGTON, D. C., February 24.—Andrew Cochran, of Maysville, is forging ahead in the Judgeship race. Judge Taft, of Cincinnati, has written a personal letter to the President indorsing Mr. Cochran, telling him of his high character and his legal ability.

A number of prominent Republicans, including Hopkins, of Illinois, were at the White House to-day in favor of Col. Evans.

There are all sorts of rumors to-day, one being that the President had narrowed the situation to Cochran and Evans. But there is no telling what the exigencies of politics may bring forth from the situation.

It is said that there is no office in the South, no matter how small, that Mr. Hanna does not weigh its influence. He telegraphed for Attorney General W. S. Taylor to come to Washington to "discuss national politics," as Taylor has given out. But Hanna's real reason is to get the political measurement of the various candidates. Last week he turned down a number of strong candidates for the Circuit Judgeship in the Fifth district to give it to a political henchman in Alabama. It is also said that without Hanna's interference the race would be between Cochran and Evans.

Taylor, Deboe and Hanna have been holding conferences all morning to dictate the appointment to the best political interests of the Administration.

Attorney General Taylor does not deny that he came on at the request of Senator Hanna, but says that the Ohio Senator is not trying to dictate the appointment of the Judge.

Senator Deboe says he telegraphed to Taylor at Hanna's request, but will not give out the subject of their conferences. General Taylor says that to state that Senator Hanna intends to dictate the appointment is an injustice.

Death of the Father of Miss Julia Stone.

Miss Julia Stone, art teacher in Maysville's schools, received a telegram last Wednesday announcing the serious illness of her father, and left at once for his home at Westfield, N. Y.

Friday, another telegram was received announcing Mr. Stone's death. No particulars have been learned. Miss Stone's many friends sincerely sympathize with her in her bereavement.

MR. JOHN DULEY has been appointed a delegate-at-large from Kentucky to the Ninth International Sunday School convention at Atlanta, April 27th-30th.

CHURCH OF THE NATIVITY—Second Sunday in Lent; Sunday school at 9:30; morning prayer, sermon and holy communion at 10:30; evening prayer at 4.

The Sixth U. S. Infantry, of which Mr. John Cogan, Jr., of Mayslick, is a member, has been ordered to Manila. It is thought the regiment will be able to sail from San Francisco by March 15th.

The individual who knew the minister of the Christian Church so well as to take the liberty of "borrowing" his wire door mat on Thursday evening is now asked to return the same if through with it, as the minister does not care to invest in another, the one taken not yet being paid for.

Charged With Horsestealing.

Jim Burbridge and Andy Vinegar, colored, residing south of Maysville, were jailed Friday by Deputy Sheriff Mackey and Constable Dawson on charge of stealing a horse from Mr. Thomas Coughlin.

The accused got on a tear Thursday night and started out the Fleming pike demolishing gates. At Mr. Coughlin's, at the first tollgate, they smashed the lock of his stable, and took one of his horses. Mr. Coughlin heard them, and mounting his other horse gave chase, overtaking them in a short time and recovering the stolen animal.

CHIEF JUSTICE MARSHALL.

Covington Lady Possesses Portrait of the Noted Jurist—Legacy From a Deceased Citizen of Mason.

[Covington Commonwealth.]

Miss Lillie Casey received as a legacy from her aunt, Miss Mary McDowell Marshall, who recently died at Washington, Mason County, a fine portrait of Chief Justice Marshall.

It is a copy of Peal's masterpiece which hangs in the consultation room of the Supreme Court in the Capitol at Washington, and has inscribed in large letters under it, "Justice."

There is an interesting history connected with Peal's portrait of Marshall. When the Chief Justice died he bequeathed this portrait to his grandson and namesake, John Marshall, who was a mere boy, and as it was all the boy possessed that was valuable, he sold it for \$2,000 with which he paid his way through college.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50c. a bottle at J. J. Wood & Son's drug store.

THE DISSOLUTION SALE

Still continues. The question that has been asked us so often in the past few days is, "Are you really going out of business, or are you just doing like so many others—trying to reduce your stock at this the dull season of the year?" Those who have been in and learned the prices that we are making on our fine goods have no doubts. You who have been in, and who do not avail yourselves of the benefits of this, the greatest sacrifice sale ever made in this city, will be the losers.

We state most positively that Lee & Ballenger are going out of business, and are selling their entire stock of Men's, Boys' and Children's Tailor-made Clothing and Men's Furnishings of every kind, Hats and Caps

Our line of FINE STIFF HATS we believe to be one of the best stocks in the State. All of these goods will be offered and sold at less than half their real value. This sale will continue until the whole stock is sold out and the business of the firm settled up. It will pay you to see these goods for present or future use. You will surely never again get them so cheap. If we were going to continue in business we would not think of selling these goods at the prices they are going for.

WE ASK YOU TO COME IN AND SEE THE DIFFERENCE BETWEEN A GENUINE CLOSING-OUT-TO-QUIT-BUSINESS SALE AND THE FAKES SO FREQUENTLY ADVERTISED!

In twenty years in business in this city we have never advertised anything that we did not do. We stand upon our record. This sale is the real thing—closing out dissolution to retire from business at prices never before equaled and perhaps never will be again. You can't afford to miss it. Respectfully,

LEE & BALLENGER

WOMEN MUST TAKE IT.

Thousands Rely Upon Paine's Celery Compound to Keep Them Well.

Do you suffer with periodical headaches? Do you begin to complain of sleeplessness?

Have you already begun to have spells of dizziness?

Does constipation or dyspepsia in any of its many forms warn you of the inevitable oncoming of general nervousness or debility?

By all means go to your druggist and get a bottle of the most wonderful restorative within the reach of woman-kind to-day—get a bottle of Paine's Celery Compound, and as thousands of other ailing, half despondent, suffering women have done before you, and as thousands more must do, you, will find in its peculiar curative qualities the womanly strength and health that you desire. Take Paine's Celery Compound and the liver will resume its normal functions, biliousness will disappear; the kidneys will find the relief they need; good digestion and the proper assimilation of food will begin at once, dizziness and constipation will no longer trouble you, wasting nervous tissues will regain their healthy tone, the blood will clear itself of its impurities and you will no longer fear the breaking down that comes to so many women early in life.

Miss Amelia Stegman, as Secretary of

the famous North Side Woman's Club of Chicago, has been an eyewitness to the good results that follow the use of this famous remedy.

"For the past six years," she says, "I have had ample opportunity to observe the good results obtained by the use of Paine's Celery Compound, as our medical advisers frequently prescribe it. Our members all reside at the club house, and as they are business women they frequently feel the need of a remedy for building up a run-down condition. We have it constantly on hand.

"Thinking you might be glad to know that Paine's Celery Compound is appreciated by our club women," she writes to the proprietors, "I take pleasure in sending you this unsolicited testimonial."

Many women are in need of nothing but Paine's Celery Compound to make them strong and well, and if after reading the many testimonials from people in every walk of life whom it has restored to health, there is the remotest doubt in any one's mind of its unexampled efficacy there is this to be said, that after all, the best test of Paine's Celery Compound is to try it.

Paine's Celery Compound has never failed to give relief. It has made thousands of people well.

ELECTRICITY DOES THE WORK.

Frozen Water Pipes Thawed Out in a Short Time by the Electric Current.

MADISON, Wis., Feb. 22.—Prof. R. W. Wood, of the University of Wisconsin, said to-day:

"In view of the wide extent of the water famine due to frozen pipes and the number of communications that we have received for more explicit information about the electrical method of removing ice from the pipes, the following details are of interest:

"The second house to which the process was applied was that of Senator W. F. Vilas, where there was a stretch of 300 feet of solidly frozen pipe between the house and main.

"One of the wires was connected to the pipe where it enters the cellar, and the other carried to a faucet on the outside of a neighboring house across the street. From this faucet the current traversed the service pipe to the street, flowed along the main and then followed the 300 feet of frozen pipe to the cellar connection. In twenty minutes from the time the current was turned on there was a full head of water flowing from the faucet in the cellar. The street main was not frozen in this case, of course. The frozen pipe was only heated to about sixty degrees Fahr, but this was quite sufficient to rapidly clear out the ice. The apparatus must be carefully adapted to the work required of it and must be properly operated, but the process is perfectly simple and may be carried on by any intelligent workman after he has been thoroughly instructed."

PREACHING morning and night to-morrow at the Baptist Church. In the morning the pastor will preach a patriotic sermon, to the Patriotic Order of Sons of America, who will attend in a body. Morning subject, "Our Government, Its Dangers and Safeguards." Evening subject, "Seeking the Lord." Mr. A. D. Flora and Mrs. R. T. Cummings have both been secured to sing for the present year.

THE Kentucky Court of Appeals set a precedent against "Hobsonizing" in this State by rendering a decision Friday affirming the judgment of the Trigg County District Court compelling William E. Ragsdale to pay Mrs. Nannie Ezell, a young married woman, \$700 for a kiss. Mrs. Ezell claimed that the kiss was forcibly taken. The Trigg County jury took her word for it and assessed \$700 damages to which the Appellate Court in its judgment has added a 10 per cent. penalty, making the exact cost of the kiss to Ragsdale \$770, besides court costs and lawyers' fees in two former trials of the case.

AIDEN BENEDICT'S "Fabio Romani" which will be presented at the opera house February 27th, next Monday night. "That which has pleased long, and pleased many, must possess some merit." Aiden Benedict's play of "Fabio Romani" has been traveling for the past nine years, and with the exception of "Monte Cristo" and "Uncle Tom's Cabin" it has played to more money and more people, it is claimed, than any other play ever written. There is only one explanation, and that is, that it possesses merit of a very high order. The lovers of the grand, the terrible, the passionate, the weird and canny are fully gratified in witnessing this production of Marie Correlli's novel, "The Vendetta."

REV. IRL HICKS, in his forecasts for the month says: "And touching the 21st to 23d, storms of rain, with thunder and lightning especially southward, will cross the country, turning to sleet and snow in central and northern sections, all followed by high barometer and cold, high winds from the northwest. The combined and continued influence of Mercury, Venus and Earth at this time insure much unsettled, unpleasant, stormy weather, even outside the limits of the regular storm periods. No one need be surprised at heavy storms generally from date of full moon, the 25th, to the end of the month. These storms are apt to be tropical in character in regions southward, but turning to sleet, snow and high northwesterly gales and blizzards in the north, on and touching the 26th and 27th. February, in all probability, will end in the midst of a very cold wave for the season."
